

CENTURION®

Custom Drapes

for sterile trays

Design a drape tailored to your own specific procedural needs. We can create drapes with unique sizes, materials, fenestrations, incise areas – almost any specification can be met. Your Centurion representative can help you create exactly the drape you need.

Centurion creates drapes customized for any sterile procedure tray

IHI recommendations

"... applying maximal barrier precautions means covering the patient from head to toe with a sterile drape, with a small opening for the site of insertion."

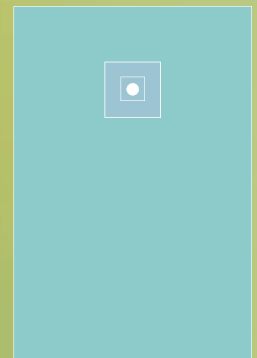

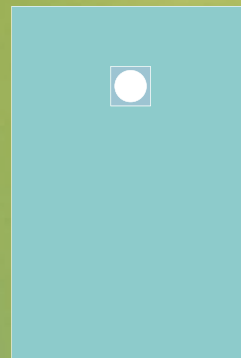

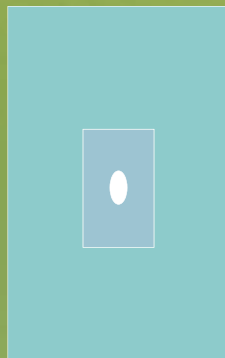

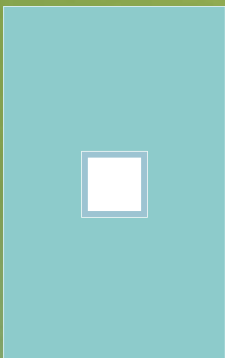

- Institute for Healthcare Improvement, 100,000 Lives Campaign, "Prevent Central Line Infections: How-to Guide"

CDC guidelines

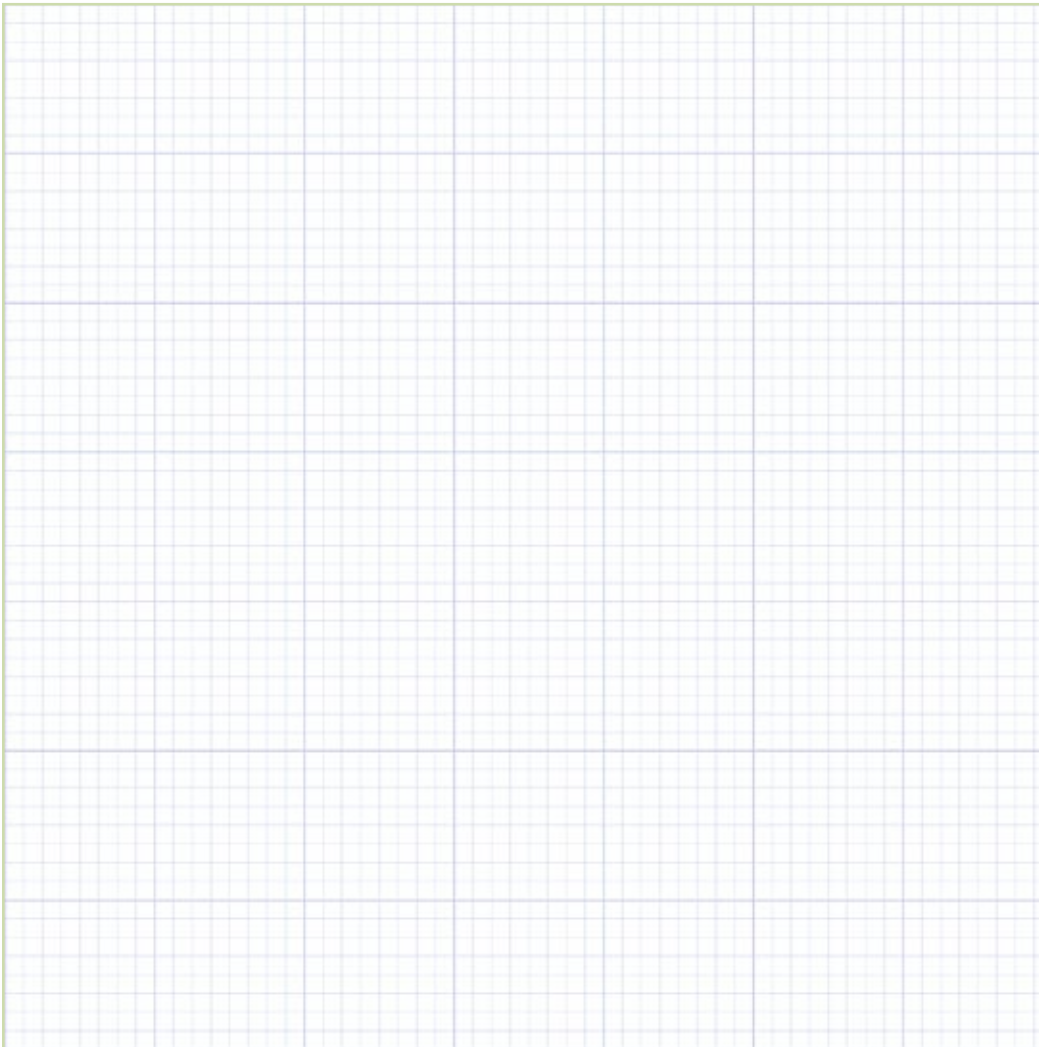

"Maximal sterile barrier precautions (e.g., cap, mask, sterile gown, sterile gloves, and large sterile drape) during the insertion of CVCs substantially reduces the incidence of CRBSI compared with standard precautions..."

- Centers for Disease Control and Prevention, "Guidelines for the Prevention of Intravascular Catheter-Related Infections," CDC Recommendations and Reports, August 9, 2002 / 51(RR10):1-26

custom drapes

Design-a-Drape

Please show dimensions and locations of all critical features, such as absorbent zones, fenestration and tape. Please be as specific as possible.

Procedure: _____

How will it be used? _____

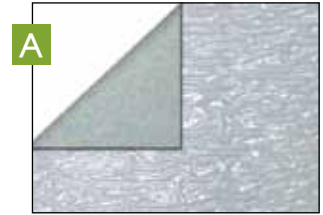

Overall drape size: _____

Fenestration size and location: _____

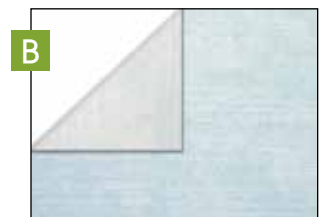

Material(s): _____

Additional Information: _____

Popular material options:
(other material options available)

Airtex – Maximum absorbency coupled with a plastic backing to prevent fluid strike-through.

Bi-Layer Construction – Has flexibility and absorbency on one side.

Non-Woven – Wetlaid with economical construction and low lint. Has alcohol and water repellency.

SMS – Very soft, cloth-like feel. Has excellent drape ability. Alcohol and water repellent.
