

**CENTURION®**

# Infant Feeding Tube

Available in individual sterile packages or as part of customized kits

- Soft, acid-resistant material with a radiopaque stripe for easy placement verification
- Opposite, displaced eyelets minimize risk of “dumping syndrome”
- Smooth rounded tips and a high-quality satin finish allow gentle and safe insertion
- Luer connectors attach tightly to standard syringe tips and are color-coded for easy size identification
- Connector with internal fitting plug provides hygienic protection against reflux and contamination
- Graduated tube is calibrated in 1cm intervals starting 5cm from distal end
