

ISLAND DRESSINGS AND ISLAND SURGICAL DRESSINGS

The trusted standard of the absorbent dressing class

Our Island Dressing is made with a special non-woven fabric that is more flexible and therefore more comfortable. The absorbent pad is lint free and won't stick to wounds, while the strong adhesive on the dressing's edges provides long wear times (up to 3 days). We use only select materials for the highest level of quality.

Adheres firmly to all body contours; flexes with skin during movement

Pad absorbs over ten times its own weight

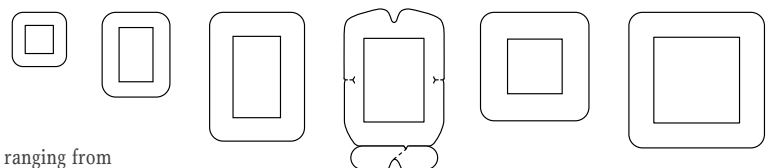

Breathable fabric and contoured edges enhance patient comfort

Lint-free pad will not stick to wound

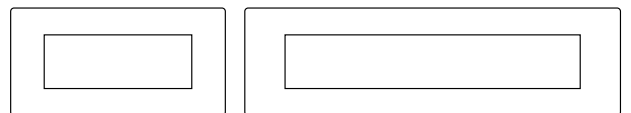

Non-sensitizing adhesive lifts off comfortably

Available in different sizes to fit a variety of wound management therapies

Adhesive wound dressing with non-adherent, absorbent pad

Sizes ranging from 2" x 2" to 4" x 14"

MADE IN THE U.S.A.
