

CENTURION®

SiteGuard® MVP

HIGH MOISTURE VAPOR PERMEABLE DRESSING

*Featuring an exceptionally high
Moisture Vapor Transmission Rate*

- 
- Independent laboratory tests show SiteGuard® MVP has an exceptionally high Moisture Vapor Transmission Rate
 - Reduces moisture accumulation and risk of infection
 - Provides proven bacterial barrier
 - Latex-free, non-sensitizing and non-irritating
 - Simple application system prevents dressing from sticking to itself during application – reduces dressing waste

MVTR value of 109.5 gm/in²/24 hrs. based on results from tests performed by Mocon Testing Service, a division of Modern Controls, Inc.
