

CENTURION®

SPILL KITS

*If an accident happens...
you have to act fast!*

These sample kits include all the necessary personal protection gear and products for safe clean-up and disposal of hazardous materials.

There are many standard kits to choose from, or you may tailor one to fit your specific needs. Contents pictured in photographs may vary.

HEAVY-DUTY CHEMOTHERAPY KIT

The heavy-duty kit provides protection from dangerous chemotherapy spills. It features a gown, boot covers, high-efficiency respirator mask, safety goggles, two types of gloves, special mats that expand to soak up spills and a sign warning of toxins at the spill site.

MEDIUM-DUTY CHEMOTHERAPY KIT

Our medium-duty kit provides a simple and safe way to dispose of chemical waste. Includes a gown, gloves, safety glasses, respirator mask, absorbent powder, dustpan and scraper, soap, sterile prep pads, absorbent sheets, chemo waste bags, and procedure instructions.

MINI SPILL KIT

An effective and economical method for managing smaller fluid spills. Includes absorbent washcloths, chlorine bleach, disposable bags with twist ties.

BLOOD SPILL KIT

On-the-spot treatment of blood, urine or other bodily fluids. Includes gloves, absorbent powder, whisk broom/pan and biohazard bag.
